

New Configurator Overview Button

Our “*new configurator*” has a “**Quick View**” feature that allows you to review specifications for your configuration. “**Quick review**” is an awesome tool for chair configuration because it provides specifications the same as order detail. Some examples of options that you can review is **Front & Rear Seat Heights** and **Caster fork hole**.

How to access Quick view button:

1. Click on “**Quick View**” at the top of our “*new configurator*” screen, a window will open

2. You can scroll through “**Quick View**” window to review specifications or click print located at the top to print.
3. Click close after you done review specifications
