

How to add Bookmarks in Chrome

Steps: Chrome

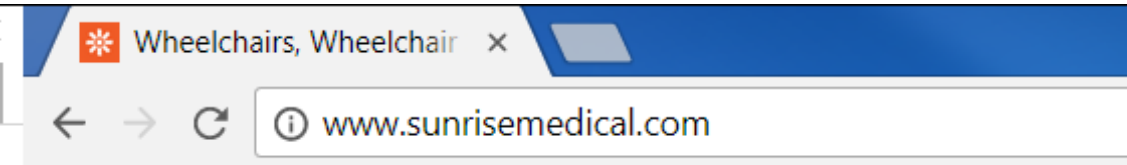

Illustration

1. Open “**Chrome**”

4. Go to the website you want to (bookmark) enter it in top web browser “search field”

Example-
“sunrisemedical.com”

3. On Chrome’s window you can bookmark the page by click on “star” icon it will open the bookmark window.

5. In the name box, enter the name you would like to call your bookmark, then click done.

6. You can access all your bookmarks by clicking the three parallel dots next to “star” icon then, click bookmark.
