

QUICKIE

CANADIAN-MADE POWER WHEELCHAIRS

The Quickie Power X series is a family of “Made in Canada” power wheelchairs providing reliable mobility to thousands of Canadians since 2006.

NEW GENERATION

X series Power Wheelchairs

The new generation offers many options including a new shroud to give your power wheelchair a new look and style. When performance meets beauty the perfect power chair is waiting for you.

What is unique to the X series?

Smooth responsive ride

No adjustments needed to achieve stability and traction.

Top of the line comfort

While riding over uneven surfaces, the hard movements and vibrations are controlled and not absorbed by the seat or user.

Worry free travel over obstacles

The unique suspension will distribute the weight over the entire footprint.

Intellidrive

A unique steer correcting feature that improves maneuverability in indoor or outdoor environments allowing you to drive with ease - naturally.

Xperience 2™

MID-WHEEL

Recline

Tilt

New Shroud

The Quickie® Xperience 2™ is a mid-wheel drive power wheelchair offering excellent stability for better comfort. A short turning radius gives easy access to small spaces. The independent suspension provides users with a smooth ride by dampening the effect of day-to-day obstacles. The Xperience 2™ is one of the best options for users spending time inside and out. It is available in Standard, Heavy Duty or Pediatric.

Xplore 2™ HYBRID

REAR WHEEL

New Shroud

New Wheel option

New Back Cover

The Quickie® Xplore 2™ is the most hybrid product available. This wheelchair offers the best of both worlds; the traction of a rear wheel drive and the short turning radius of a mid-wheel drive wheelchair. The fast speed of the Xplore 2™ makes it the ideal choice for someone spending a lot of time outdoors and who wants to go the distance. Safe and comfortable, the 6-wheel independent suspension is offered in Standard and Heavy Duty. The wheelchair come standard with transport brackets. Seat options: tilt, manual and power recline, and elevating seat.

Complement your wheelchair with BACKS & CUSHIONS

The JAY® J3™ cushion provides outstanding stability and optimal pressure distribution for the client at high risk of skin breakdown, and offers the choice of JAY Flow™ Fluid or ROHO DRY FLOATATION® air inserts.

The JAY® Union™ is a versatile, comfortable, skin protection and positioning cushion composed of a dynamic fluid and foam layering system, moisture resistant inner cover, and an anti-microbial outer cover.

The JAY® Fusion™ is an adjustable cushion designed for skin protection that features JAY Flow™ Fluid or ROHO DRY FLOATATION® air insert options in a package that's comfortable, stable and supportive.

The JAY® Ion™ is a comfortable skin protection and positioning cushion composed of a multi-layered foam base, moisture resistant inner cover, and an anti-microbial outer cover.

The JAY® J3™ backrest product line offers a multitude of width, height, and contour depth back shells to fit the back to the client. Each back is lightweight and adjustable, with numerous hardware choices allowing for easy installation.

Comfort and Support all in One! The JAY Union Back is the complementary addition to any manual, positioning on power wheelchair.

American Access
